Nevada Home Visiting

MATERNAL, INFANT AND EARLY CHILDHOOD
NEVADA STATE HEALTH DIVISION

This publication was supported by the Nevada State Health Division through Grant Numbers X02MC19408 and X02MC23117. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Nevada State

What is Home Visiting?

Home visiting is a service offered to support positive parenting, develop nurturing homes and promote healthy child development through regular home visits by trained professionals. Families who are expecting, or have children up to age 5, may voluntarily request these free in-home services. Nevada Home Visiting supports agencies and organizations that administer home visiting services to pregnant women, mothers, fathers, and caregivers in the education of their young children to improve maternal and newborn health, improve school readiness, and to reduce child injuries, neglect, and abuse.

Mission Statement

Nevada Home Visiting exists to develop and promote a state-wide coordinated system of evidence-based home visiting that supports healthy child development and ensures the safety of young children and family members.

Statewide Resources

The following resources can be utilized by any person in Nevada, regardless of location. Most will provide direct services, however, in some instances they may be used themselves as a reference in connecting an individual with other resources not necessarily within the county.

In case of an Emergency, Call 9-1-1

An emergency is any situation that requires immediate assistance from the police, fire department or an ambulance. If you are not sure whether the situation is a true emergency, officials recommend calling 9-1-1 and letting the call-taker determine whether you need emergency help. When calling 9-1-1 be prepared to answer the following questions:

- The location of the emergency, including street address if possible
- The phone number you are calling from
- The nature of the emergency
- Details about the emergency

If you or a child calls 9-1-1 by mistake, do not hang up, that could make the 9-1-1 call-taker believe an emergency exists and possibly send responders to your location. Instead of hanging up, explain the mistake to the call-taker.

Nevada 2-1-1

Connects individuals with access to basic human needs resources, physical and mental health resources, financial assistance, programs for children, youth and families, support for older Americans and persons with disabilities, volunteer opportunities and donations, and community crisis or disaster recovery assistance. Access by calling or texting 2-1-1.

www.nevada211.org

Aging and Disability Services

Aging and Disability Services Division

The mission of the Aging and Disability Services Division is to develop, coordinate, and deliver a comprehensive support service system of essential services, which will allow Nevada's elders and those with disabilities to lead independent, meaningful, and dignified lives.
